Pop star goes AWOL, thinks he's a murder suspect, and so he hides out in a seedy motel. What do you mean, nothing happens? A lot happens? What does he do in that motel? He masturbates, that's what he does. Which means, this can be fantastic. It can even be "experimental". The pop star's bi, you say? And not in the double your pleasure double your fun sort of bi-way? Well, that means his fantasies must be pretty abstract. When you get outside of concrete gender; you're going to wind up abstract. Abstraction is the only way to go. It has to be art, I'm afraid that's your only option. Art.
